

# Bing Gao

CFD Engineer & Developer — External aerodynamics, CFD methodology & simulation tooling

gaobing1230@gmail.com · Paris La Défense, France  
linkedin.com/in/bing-gao/ · github.com/gaoflow

## EXPERIENCE

|                                                                        |                   |
|------------------------------------------------------------------------|-------------------|
| <b>Vinci Eco Drive — ESILV Formula Student — Aerodynamics Engineer</b> | 09/2025 — present |
| <b>Inkeverse Group — Mobile Application Development Manager</b>        | 2016 — 2025       |
| <b>Google Developer Group Beijing — Core Organizer (part-time)</b>     | 2015 — 2025       |

## EDUCATION

|                                                                                  |                        |
|----------------------------------------------------------------------------------|------------------------|
| <b>ESILV — MSc Modelling &amp; Computational Mechanics</b>                       | 2025 — 2027 (expected) |
| <b>CUST — Changchun Univ. of Science &amp; Technology — BSc Computer Science</b> | 2012 — 2016            |

## SKILLS

|                                     |                                                                               |
|-------------------------------------|-------------------------------------------------------------------------------|
| <b>Engineering &amp; Simulation</b> | Ansys Fluent & Mechanical · OpenFOAM · Abaqus/Explicit · Blender · SolidWorks |
| <b>Programming</b>                  | Python · C++ · C · Rust · TypeScript · Java / Kotlin · Ruby on Rails · React  |
| <b>Languages</b>                    | Chinese (native) · English (full professional) · French (DELF B2)             |
